1. Sawasdee from Thailand

Sawasdee. Thailand is honored to host the 80th Annual Meetings of the International Monetary Fund and the World Bank Group in 2026. For the second time since 1991, when the Annual Meetings were first hosted in our country, Thailand will be marking a significant milestone in our nation's diplomatic and economic journey. This prestigious event represents our commitment to fostering international cooperation and sustainable development.

As a proud member of the global community, Thailand brings decades of experience in regional leadership and economic transformation. Thailand is well positioned to host this important gathering, with its strategic location in Southeast Asia, combined with rich cultural heritage and well-connected infrastructure.

The 2026 Annual Meetings will showcase Thailand's approach to economic development, which places people at the center, as well as reaffirm our commitment to embracing innovation to generate long-term prosperity. We look forward to welcoming delegates from around the world to experience Thai hospitality while engaging in meaningful discussions about the future of global finance and development.

4. The Annual Meetings Campus at QSNCC

Thirty-five years since it was built to host the International Monetary Fund and the World Bank Group Annual Meetings in 1991, the Queen Sirikit National Convention Center (QSNCC) is once again the center stage of the world's biggest economic and financial event. The 2026 Annual Meetings of the International Monetary Fund and the World Bank Group will be held at this premier convention venue, located in the heart of Bangkok along Ratchadaphisek Road, near the MRT Blue Line.

Set beside Benjakitti Park and within close reach of Sukhumvit, Silom, Sathorn, Siam, and the city's main hotel and business districts, the venue offers participants a highly accessible and sustainable urban campus combining meeting facilities, hospitality services, public transport, green space, and nearby commercial amenities.

For the 2026 Annual Meetings, QSNCC will serve as the principal venue for official meetings, offices, services, media facilities, and participant support functions, forming a compact and modern campus at the center of Bangkok's international business and diplomatic landscape.

The QSNCC was designed with sustainability at its core, earning LEED Silver certification for its green building design and ISO 50001 certification for energy management, reflecting its commitment to efficient energy use and reduced environmental impact.

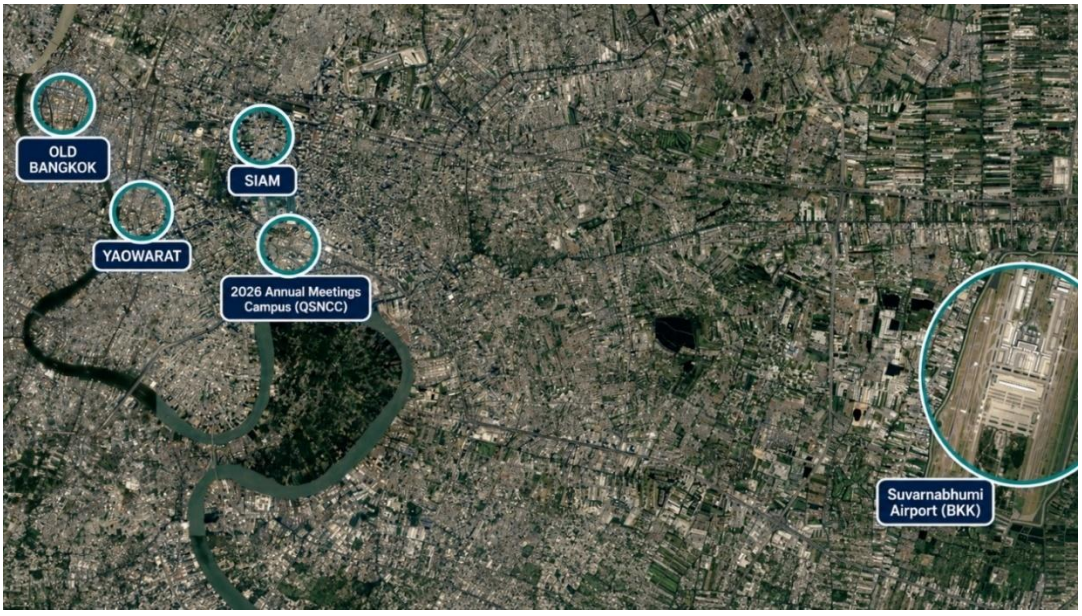
8. Bangkok Krung Thep the City of Angels

Located at the very center of the heartlands of the Chao Phraya Basin, the capital and largest city of the Kingdom of Thailand, Bangkok, was founded as a small fishing hamlet on the right bank of the Chao Phraya River during the Ayutthaya Period, but quickly gained prominence due to its proximity to the mouth of the estuary. Various foreign powers vied to gain settlement in this area from the Ayutthaya court, from the Portuguese to the French, who established a fort in the area during the 17th century.

After the Fall of Ayutthaya, Sin, Lord of Tak, rallied the remaining Thai troops and established a new capital, Thonburi, where the French fort once stood in 1767. Sin is now known in Thai history as King Taksin the Great, or the King of Thonburi. After a successful, yet turbulent, reign of more than a decade, King Taksin was overthrown by his chief general, *Chao Phraya Chakri*, later King Rama I, who founded the present Rattanakosin Kingdom, and moved the capital to the left bank of the river in 1782, where it remains to this date.

Nearly a century after its foundation, King Rama IV renamed the city to its current ceremonial name as *Krung Thep Maha Nakhon Amon Rattanakosin Mahinthara Ayutthaya Mahadilok Phop Noppharat Ratchathani Burirom Udomratchaniwet Mahasathan Amon Phiman Awatan Sathit Sakkathattiya Witsanukam Prasit*, which can be translated as **"The great city of angels, the supreme city of immortals, the magnificent city of the nine gems, the royal capital, the delightful city abounding in palaces, the supreme royal residence, the great metropolis, the celestial abode, the city where incarnate deities dwell, the city granted by Indra and built by Vishvakarman."**

The city of more than 17 million people, which originated as the fishing village of Bangkok, was henceforth colloquially referred to as "Krung Thep," aptly translated to "The City of Angels."



8.1 A city of royal heritage

After the establishment of his new capital, King Rama I sought to derive his authority from the ancient kings of Ayutthaya, and modeled his royal city upon the sacred geography, ceremonial order, and architectural traditions of the former Siamese capital. Today, this legacy is best experienced on **Rattanakosin Island**, Bangkok's historic royal quarter, where many of the city's most important cultural landmarks are located within a compact and highly walkable area.

- **The Grand Palace** is the centerpiece of the royal quarter and one of Thailand's most important landmarks. Built in 1782, it contains ceremonial halls, throne rooms, courtyards, and pavilions that reflect more than two centuries of Thai royal architecture. **The Temple of the Emerald Buddha**, stands within the Grand Palace compound. It enshrines the Emerald Buddha, the sacred palladium of the kingdom, and is renowned for its gilded stupas, mural galleries, guardian figures, and intricate ornamentation.
- **Wat Pho**, the **Temple of the Reclining Buddha**, is located a short walk from the Grand Palace. It is known not only for its immense reclining Buddha image, elegant stupas, and peaceful courtyards, but its association with the world-renowned traditional Thai massage and medical knowledge. One could experience this ancient practice in its most authentic form at this very temple.
- **Sanam Luang** is the large ceremonial field north of the Grand Palace. It has long served as a venue for royal ceremonies, public gatherings, and national events. In late 2026, the field will be the site for the royal cremation ceremony of Her Majesty the late Queen Sirikit, the Queen Mother.
- **Bangkok National Museum**, located near Sanam Luang, occupies the former Front Palace. It houses major collections of Thai art, royal regalia, Buddhist sculpture, ceremonial objects, weapons, textiles, and historical artifacts.

8.2 Bangkok on the table

Bangkok is widely regarded as one of the world's greatest food capitals, where royal culinary traditions, regional Thai cooking, street food, and contemporary fine dining coexist within a single city. In 2025, Bangkok was ranked the second-best food city in the world by *Time Out*, while *Food & Wine* named it the world's top international city for food and drink in its Global Tastemakers Awards. These rankings reflect what visitors quickly discover: in Bangkok, exceptional food is not confined to formal dining rooms, but found at every level of the city's daily life.

- Michelin Credentials: The MICHELIN Guide first entered Thailand in 2017 with the launch of *The MICHELIN Guide Bangkok 2018*, marking Bangkok's formal arrival on the global fine-dining map. Since then, the guide has

expanded to cover other major Thai destinations, while Bangkok remains the country's leading stage for Michelin-recognized Thai cuisine: from refined regional Thai cuisine to elevated Thai cuisine inspired by royal and regional culinary traditions. Modern takes, such as contemporary Thai tasting menu rooted in local produce and a garden-to-table philosophy, are also present. Restaurants masterfully interpret seasonal Thai ingredients through modern technique, but remain shaped by family recipes and traditional flavors.

- Historic Streets, Local Flavors: Bangkok's everyday dining culture is best experienced in its historic food districts, where old family-run shops, street vendors, cafés, dessert stalls, and new casual eateries sit naturally alongside one another.
    - **Yaowarat**, Bangkok's Chinatown is representative of Thailand's Chinese diaspora, the largest overseas Chinese community in the world, and remains one of the city's great food destinations, especially in the evening, with Thai-Chinese seafood, noodles, roasted meats, dim sum, herbal drinks, and late-night street food. Nearby **Song Wat** offers a quieter but equally distinctive dining atmosphere, as old trading shophouses have been adapted into bakeries, cafés, Thai-Chinese eateries, and small restaurants. **Talat Noi**, another one of Bangkok's oldest Chinese communities, adds another layer of local flavor, with traditional snacks, riverside cafés, and hidden food stops tucked among shrines, warehouses, and narrow lanes.
    - Further east, **Banthat Thong** has become one of the city's liveliest contemporary food streets, drawing crowds for Thai comfort food, noodles, seafood, grilled dishes, desserts, and casual late-night meals. Together, these districts show Bangkok at its most immediate and accessible: a city where food is woven into the streets, neighborhoods, and rhythms of daily life.
    - **Go beyond Pad Thai:** Although a delectable dish in its own right, local Thais prefer other dishes in their everyday lives compared to the world-renowned stir-fried noodle. A local's day may start with a fast, hearty breakfast of *Khao Gaeng*, or curry on rice, that is prepared at a moment's notice, buffet style. Their lunch may be the fragrant *Khao Pad Krapao*, or stir-fried meat and basil on rice, to get them ready for the latter half of their day. While they may wind down at dinner, with street seating, at a regional food restaurant serving dishes such as the fiery *Som Tum*, or papaya salad, from the Northeast (*Isan)* region.
